AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

Review of a cooling and cold storage operation in Delano, CA, that receives packed table grapes and citrus from other packing facilities. The operation follows a specific flow chart, starting with receiving the product, palletizing it, and then fumigating it with SO₂ upon customer request (for California table grapes). The product is then stored in cold storage before being shipped out. The cold storage has 65000 square feet of cooling space and uses forced air in the cold room. The employees followed good manufacturing practices (GMP), and documentation was well-organized and accessible for inspection. I inspected the receiving area, break room, restrooms, and the surrounding areas. The facility has 20 employees on duty.

Addendum(s) included in the audit:

Not Applicable

Product information for each product

Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Oranges	Not observed but of a similar risk type to what was observed*	From: November To: July	Japan, Indonesia, Viet-Nam, Singapore, United States
Grapes (Table)	Observed on the day of audit	From: July To: December	Korea, South, United States, Japan

CERTIFICATE VALID FROM:

Sep 29, 2023 To Sep 28, 2024

Product information for each product

Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Minneolas	Not observed but of a similar risk type to what was observed*	From: January To: March	Korea, South, United States, Japan, Indonesia
